

OUR LADY OF LIGHT CHAPEL

Santa Fe, New Mexico

This Gothic Chapel was built by the Sisters of Loretto, but was completed with the oversight of stairs to the choir loft and little space to build any. The prayers of the Sisters were answered when an unknown carpenter came to them and built this masterpiece of design. Constructed in a minimum of space and without the use of nails, the mysterious carpenter disappeared, even before receiving payment or the thankfulness of the grateful Sisters.

Dear Laura,

We are seeing lots of sights & meeting some very nice people.

Hope you are staying well.

Love

Jan & Dick
